Agile University: Delivery School

Retrospective

High performance. Delivered.

Activity

- Consider the entire participant group as one team

- Faculty will act as a Scrum Master

- Faculty will capture the below details from participants:

  - What went well in Day 1 / Day2 in terms of topic delivery, activities, how far the course content is applicable to their real usage etc.

  - What can be improved in terms of additional topics to be included, more details required on any topic, more activities etc.

- Faculty to log action items and track them to closure.
